Before this 13-storey apartment was built, a mother and her son was buried there. When the construction began, they were accidentally separated.
That is why both their spirits wander around these two elevators..
Every night they appear to find each other.
Sadly they will never be able to meet and none of them couldn't reach the other elevator. They can only wander near the elevator where their bodies were buried under...
GYA!
HELP!!
GHOST!!
OPEN THIS DOOR!!
GYAA!!
